Executive Summary

We completed projects such as Random Password Generator, QR Code Generator, Alphabetical Letter Pattern creation, Sending Email or Whatsapp messages via Python code, Speech Recognition ,Quiz Game, File Handling Project.

It was a thrilling experience to learn from such an experienced faculty. During my internship as a Python programmer, I had the opportunity to gain valuable hands-on experience and enhance my skills in Python programming. Over the course of the internship, I worked on various projects that allowed me to apply my knowledge and contribute to real-world solutions.

My internship provided me with several key takeaways, including:

- Improved problem-solving skills through Python-based solutions.
- Enhanced project management and teamwork abilities.
- Practical experience in data analysis, automation, and web development.
- A deeper understanding of software development principles and best practices.

Outcomes Achieved: Python Proficiency, Applied Problem-Solving, Team Collaboration

Summary of Activities: During the Python internship phase, we engaged in a diverse set of activities:

Training Phase:

- Python Fundamentals:** Completed a comprehensive Python fundamentals course, covering variables, data types, control structures, and functions.
- Intermediate Python:** Advanced to more complex topics such as object-oriented programming, file handling, and error handling.

OVERVIEW OF ORGANISATION

EISystems Services is a leading Indian technology identity with operations across India. EISystems (We call it EISys) offers trainings in Cybersecurity, Machine Learning, Automobiles, Internet of Things, Robotics and Socialmedia for enterprises and student community. Till date we have trained approximately 50000 students and impacted around 2 lakhs students through our various outreach initiatives since our founding.

Our Presence

Some of the colleges where we had already felt our presence are given below:-

Indian Institute of Science, Bangalore

Indian Institute of Technology, Bombay

Indian Institute of Technology, Delhi

Indian Institute of Technology, Madras

Indian Institute of Technology, Kanpur

Indian Institute of Technology, Roorkee

Indian Institute of Technology, Guwahati

Indian Institute of Technology (Banaras Hindu University), Varanasi

and more around 100 colleges

PROJECT SUMMARY

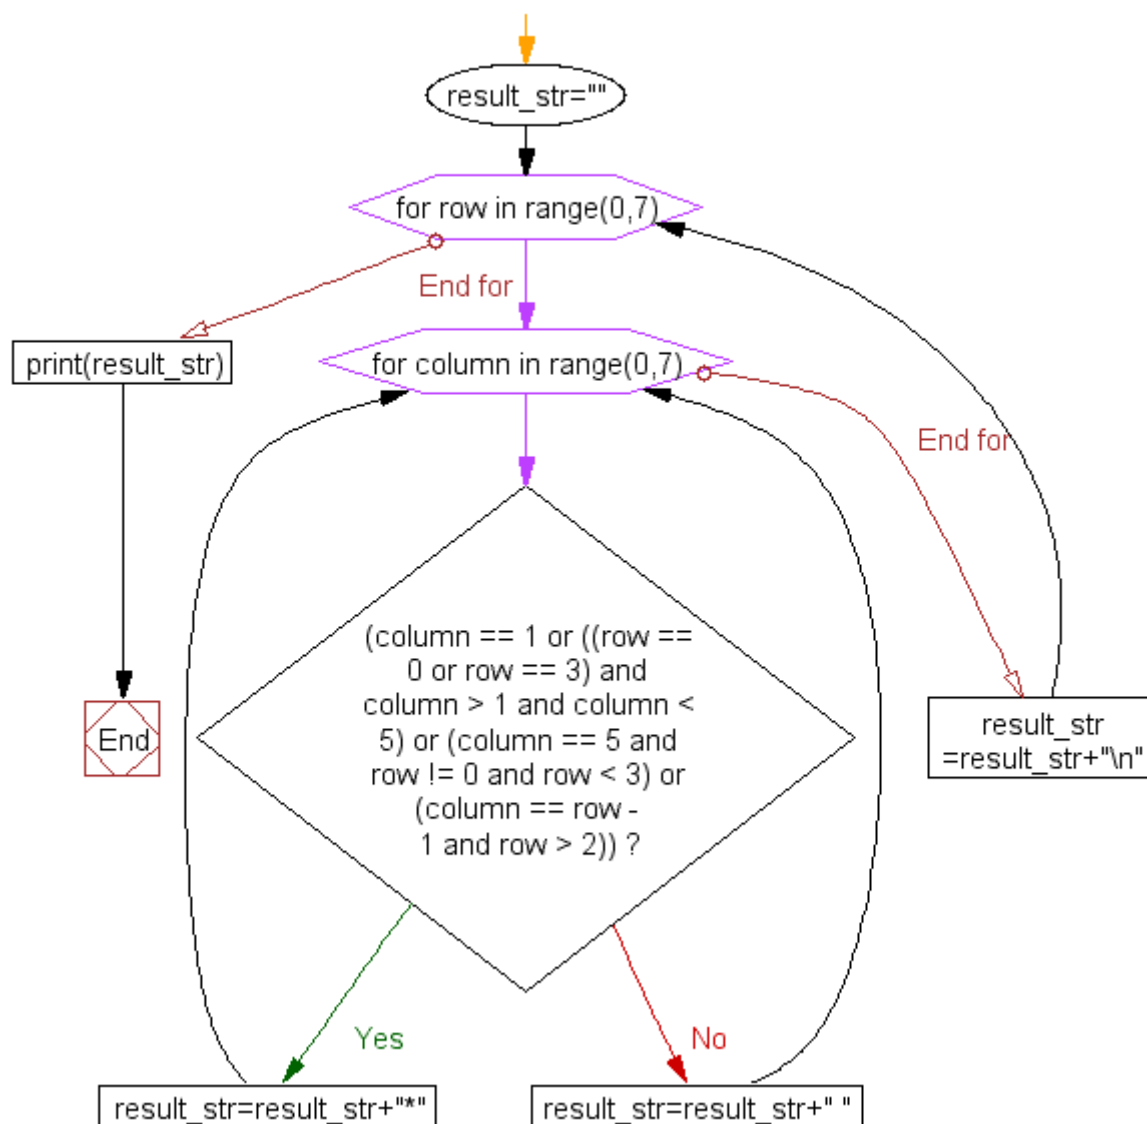

We made an alphabetical letter pattern and a quiz game . The idea behind this was to create something different. We used IDLE in python and we had used basic laptop with python 3.0 stable.
